Training Achievement
Trained and mentored junior developers.

Skills

Python Programming · ODOO · Module Development · Database Management · Frontend Design · Web Development · Workflow Configuration · OWL Js · PostgreSQL · Gitlab · Javascript · Git · Docker

Projects

ODOO AI Dashboard

- Designed and implemented the "Odoo AI Dashboard" module, integrating large language models (LLMs) such as Gemini and GPT for efficient data training. Enabled advanced search capabilities, dynamic data visualization through customizable graphs, and interactive dashboards within Odoo.

POS Pharmacy Management

- Developed the "POS Pharmacy Management" module, integrating comprehensive pharmacy functionalities into Odoo's point-of-sale system, enhancing inventory management, prescription handling, and sales tracking for pharmacies.

Hotel Management System

- Integrates Odoo's website, sales, and POS features to streamline hotel operations, including booking management, guest services, and payment processing.

List View Manager

- Provides enhanced management of list views in Odoo. Features include customizable columns, color coding, per-column searches, and show/hide options, improving user experience and data organization.

POS Live Chat

- Implemented the "POS Live Chat" feature, allowing users to engage in real-time chat within the Odoo POS interface, facilitating communication and collaboration among staff and enhancing customer service.

POS All in One Screens

- Developed the "POS All-in-One Screens" module, offering comprehensive functionalities for Odoo POS, including kitchen screens, review screens, and cart management. This robust module supports multiple sessions with configurable options, and the kitchen screen itself includes extensive features to enhance operational efficiency in the restaurant environment.
